Upgrading your existing
Pelton LFII, Adec 6300 or
Belmont Clesta halogen light
with one of Flight Dental's
Energy Efficient LED Light-heads.

www.flightdentalsystems.com/retro

UPGRADE

- This Retro-Fit Kit installs on your existing arms and mounts and allows you to use your existing wiring and power supply.
- Easy and simple step by step instructions to upgrade your Halogen Light LED.
- Most installs can be performed in less than 45 minute by your Local Service Technician.
- Entire Retro-Fit Kit and cost of installation is a fraction of alternate lighting solutions.

OUR FEATURES

- No need to replace eny expensive reflectors and fans
- Brighter LED Light to replace dull Halogen Lights
- Energy efficient Light Bulbs with 10,000 hours expectancy
- Control Light color with 3 Programmed Settings (Cure Safe, Surgical & Color Matching Mode)*
- Eliminate heat & bulb burn out
